We expect a plan.

The next President-elect must use the office to lead the nation and the world in addressing climate change; this means:

- Making a climate initiative a top priority of his or her administration
- **Outlining a comprehensive early action program during the campaign, to be developed and launched within 150 days of the election**

WHAT ARE THE BENCHMARKS OF A COMPREHENSIVE EARLY ACTION PROGRAM?

- 1) Legislation for **economy-wide emissions reductions**
- 2) **Aggressive R&D** for low-carbon energy technology
- 3) Federal **planning for climate change impacts** and response
- 4) **Picking the right team** to carry the initiative
- 5) Cooperation with **international partners**
- 6) Reallocation of **budget priorities**
- 7) **Enable/encourage citizens** to take efficiency and conservation in their own hands.
